1966 Mini Cooper "S" MK1

FIA legal Mini Cooper built to "S" spec with new 2016 FIA HTP documents in full race specification. This car has been in one family since 1990 and has won the European FIA Historic Touring car championship twice as well as numerous other races. In 2013 the car has received a total upgrade by leading Mini Specialists Verbaas Preparations of The Netherlands and has only raced once in the 2013 Historic Grand Prix at Zandvoort with a class win.

Spec: RHD, Current FIA Seat, Harness and Fire extinguisher. Full race engine with ample torque so great to drive, LSD, SCCR gears, etc. Koni race dampers, anti roll bar, Minilites, Lexan windows, Alloy foam filled tank, too much to mention. Immaculate condition.

The current set up is for circuit use but the car is built in such a way that it can be easily converted for Historic Rallying. The car was imported from the UK in the early nineties and comes with a Belgian registration as well as the original English V5.
